- *High School/Post Secondary Graduation Diploma*
- *Transcript of High School/Post Secondary Marks*
- *Resume with references*

Signature of Applicant: _____

*******Please see reverse side*******

Essex & Kent Joint Apprenticeship Training Council (EKJATC)

Information for Applicants:

You are applying for a Construction and Maintenance Electrical Apprenticeship. If you are accepted, you may be indentured as an Apprentice, under a contract between the Ministry of Training, Colleges and Universities and the EKJATC. The EKJATC will be your sponsor for 5 terms (4 years) or until you have satisfied all the requirements. If accepted as an apprentice, you will be placed to work for an Electrical Contractor by the Union. The apprentice rate of pay begins at 40% of a journeyperson's rate of pay. You will work in the Residential/Commercial and Industrial sectors. The Residential rate of pay is slightly less than the Commercial/Industrial rate of pay.

The EKJATC accepts applications from March 1st to March 31st annually. The selection process for potential apprenticeship candidates begins shortly thereafter. When turning in your completed application, be sure to include:

- Documentation to prove you have earned a Grade 12 diploma or are presently enrolled in Grade 12 or any additional Post Secondary Education.
- A transcript of all school marks
- A resume outlining a work history including part time and voluntary work. Include references.

All applications will be processed by the EKJATC. In this phase of the selection process, it will be determined if an applicant is required to take an aptitude test and/or attend an interview. *Only applicants required for an interview or aptitude test will be notified by mail.* A second interview may be required. *Only those candidates required for a second interview will be notified.*

After a second interview, the selection of apprentices will be made with the successful candidates being notified by mail. The number of apprentices selected each year varies in accordance with the forecasted work picture for our area. Those applicants selected to the Apprenticeship Program could expect to start work for an Electrical Contractor shortly after they receive notification of their acceptance and their completion of a one week (unpaid) safety training course.

During your apprenticeship you will be required to attend night school classes at the Union Training Centre in each of the four years. Night school runs September thru March.

YOU MUST maintain a 75% average at night school, and your attendance and participation is MANDATORY! All successful applicants are required to follow all rules and orders as mandated by the EKJATC. Violation of any rules during your entire apprenticeship could result in expulsion from our program.

During your apprenticeship, you will be required to attend Government Day School as mandated by the Ministry of Training, Colleges and Universities for Basic, Intermediate and Advanced Levels. If eligible, you may receive Unemployment Insurance while attending Government Day School.

With the large number of people interested in our Apprenticeship Program, it is very difficult to be selected—only a small percentage are accepted. To those applicants who are not accepted into the Apprenticeship Program, we would like to thank you for your interest and would encourage you to enhance your resume and apply again at a later date.

The EKJATC may request a police clearance certificate from the applicant during the selection process.
